

PUBLICATION INPUT

TO WHOMSOEVER IT MAY CONCERN

The publication details provided by Infilbnet for Scopus and Web of Sciences are found to be correct. However, for UGC-CARE journal publications, Infilbnet has provided the total number of publications as “0,” affecting metrics 3.4.6 and 3.4.7. The PubMed publication count is also shown as “0” because of which the metrics 3.4.5 is getting affected.

Here we want to record that 395 research paper publications were done in UGC CARE listed Journals for the past five assessment years (2018-19 to 2022-23) towards the metrics number 3.4.6 and the same has been submitted by the HEI in the SSR.

Similarly, as the Infilbnet is not able to fetch the data from the UGC CARE towards the metrics 3.4.7, which focuses on book publication, book Chapters publication, and conference proceedings and for the same, the total number of publications submitted by the HEI in SSR is 62 for the past five assessment years (2018-19 to 2022-23).

The PubMed publication done for the past five assessment years (2018-19 to 2022-23) is given as 34 by the HEI in the SSR.

The detail pertaining towards the metrics 3.4.5, 3.4.6 and 3.4.7 are given below for your kind consideration:
