

P.P.SAVANI UNIVERSITY

DEPARTMENT OF PUBLIC HEALTH

Guideline for Masters in Public Health (MPH) admission:

Objective:

Our Mission is to build the capacity of the human resources in the field of Public Health. We strive to become a center of excellence in offering training and capacity development in rural public health, and other health related aspects of Global Health.

This program is designed to impart the technical and management skills to students in the area of Public Health

Department of Public Health:

Development of public health workforce is the necessary prerequisite for finding solutions to enormous public health problems and challenges in India. Considering this, PPSU decided to start a Department of Public Health and commence the MPH Program from the academic Session 2020-21.

Why pursue a career in Public Health?

- Public health is an exciting and growing field
- Public Health is an emerging field of opportunities as the era has shifted from just treating a disease to controlling and preventing it in the community.
- The field enriches the research activities and health promotion activities.
- Public health is a field geared towards serving Community
- The field challenges its professionals to confront complex health issues, such as improving access to health care, Control and prevention of communicable and non-communicable disease,
- Reducing environmental hazards, violence, substance abuse, Injury by sensitizing the community
- Working towards improving people's health and wellbeing.
