Testimony of Students

Amadu S. Jabateh

I am Amadu S. Jabateh, hailed from the Republic of Liberia, during master in public health in 2022 Batch, I am highly grateful and delighted to be admitted at PPSU as international student whose public health master programme is efficient, strong and has a lot of qualified and experienced professor's.

We welcome you all to 2023 academic year to the PPSU master programme of excellence and exploration.

Vaibhavi Jethwa

I'm a student of the MPH 2022 batch. I decided to pursue a master's degree in public health from a prestigious university. PP Savani university is a well-known university in south Gujarat, offering a variety of courses with a great campus and skilled faculty. The MPH programme faculty is nice. They share their knowledge and skills as well as information in their area of specialisation.

ABOUT THE UNIVERSITY

P P Savani University, a prominent Knowledge City, is a fully integrated higher education centre for students from all over the world. It has great reputation in the education sector due to its extensive domain exposure in the field of education. P P Savani University stands among Indian universities for providing a quality and complete learning environment in fields ranging from nursing to engineering, liberal arts to specialised sciences, architecture to medical, and management to designing.

The long history and pedigree of P P Savani University is one of its most remarkable aspects. Mr Vallabbhai Savani, a first-generation entrepreneur, formed the P P Savani Group in 1987. In 2017, the group established P P Savani University, which is sprawled across 100 acres of green landscape and has seen considerable development by creating a new standard in the higher education business. P P Savani University, in keeping with its objective of offering quality education to students, provides undergraduate, postgraduate, research, certificate and skill-development programmes. The institution is committed to

improving students' learning experiences by providing them with the skills and information required in the current challenging industry. It provides quality education to students while also instilling in them the necessary values. The infrastructure, the educational ambiance, the well- designed curriculum and the practical exposure to the students will all add up to students' prospects.

Master in Public Health

P P Savani University is the first in south Gujarat to establish a Department of Public Health and to begin the Master in Public Health (MPH) programme in 2019. We strive to be the Public Health Centre of Excellence by providing a world-class academic environment in which students are prepared to meet global standards.

The university welcomes national and international students. It lays an emphasis on a thorough understanding and critical multidisciplinary training of public health issues, principles and practices. The goal of the MPH programme is to provide students' knowledge and skills to perform as an effective manager, leader or administrator in health systems, in both public and private sectors.

Eligibility: (Medical or Non-Medical Background)

- Qualifying score in All India Entrance Examination for Master in Public Health organized by Department of Public Health PPSU.
- Undergraduate degree in Medicine (MBBS), Ayurveda (BAMS), Homoeopathy (BHMS), Unani (BUMS), Dental (BDS), Pharmacy (B.Pharm), Physiotherapy (BPT), Nursing (B.Sc., M.Sc.), Nutrition (B.Sc.), Psychology (BA/MA), BA, MA, BMLT, Bachelors in OT Technician, B.Sc., MSW.
- Candidates should have an undergraduate degree with minimum 50% Marks.

Duration and Core Areas

The Master in Public Health (MPH) programme is a two-year full-time degree programme. The MPH programme for session 2023-2025 will commence from August 2023.

The full-time MPH programme aims at developing students' competencies in the following core areas:

Epidemiology | Biostatistics | Environmental Health Sciences | Public Health Biology | Health Management and Functional Management | Social and Behavioural Sciences | Public Policy | Ethics | Public Mental Health | Advanced Epidemiology.

Learning Pedagogy

The entire course comprises of eighty credits. The teaching and learning techniques include coursework, a capstone project in the first year and a practical assignment in the second year.

Capstone Project

Students in the Master in Public Health (MPH) program are required to complete a Capstone project to address a public health issue through the lens of management; quality improvement; program planning, implementation or evaluation; policy; practice; or research.

Practicum

Prior to post graduation, students must complete a practicum in population-based health, which places a special focus on practical training. The practicum entails working and communicating with public health experts while being mentored.

Highlights of the MPH programme

- Students' volunteering opportunities in Community Mental Health Projects organised in Collaboration with SMC and CFSCSNP Surat.
- Field visits like Sub Centres, Primary Health Care Centres, Sewage Treatment Plant, Water Filtration Plant, Community Centres, hospitals and laboratories etc.
- Expert sessions, workshops and awareness programmes in the field.
