The videos covered ragging types, legal aspects, reposting channels, and interactive discussions. The mentoring session on anti-ragging for first-year BTech students successfully conveyed the institution's dedication to creating a secure and respectful environment for all students. By raising awareness about the legal, institutional, and policy aspects of ragging prevention, the session contributed to fostering a culture of empathy, respect, and responsibility within the campus community.

The event is intended to make the students aware of the anti-ragging rules and make a pledge to not get involved in any kind of ragging activity. All promised that they won't indulge in Ragging or any form of violent behaviour and will contribute in making P P Savani University as "Ragging Free" university. The pledge has several motives:
