P P SAVANI UNIVERSITY

EXPLORE EXPERIENCE EMPOWER

School of
Architecture

GIVE SPACE A
UNIQUE DESIGN IDENTITY
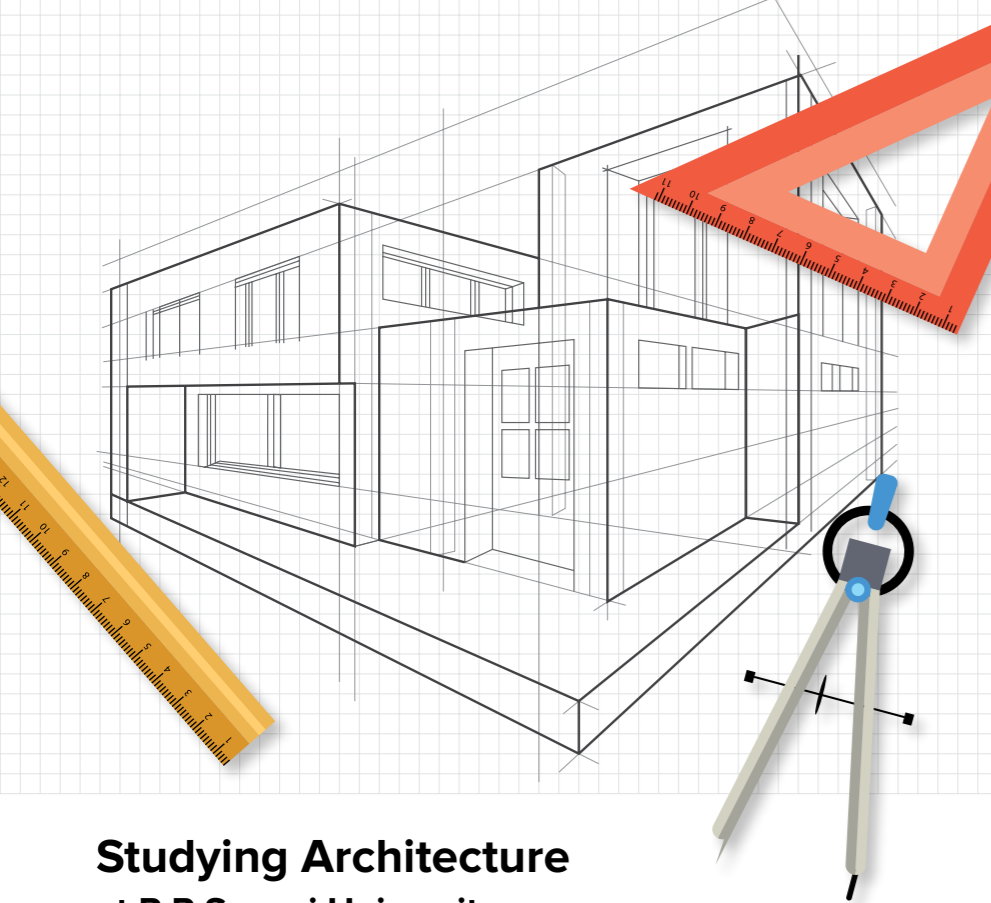

Studying Architecture
at P P Savani University

Architecture is another word for environment. Architecture is a living testimony of prolonged and cumulative interaction of man with his environment. Mankind, if exposed to and set into fabric of nature, would respond affirmatively and grow spiritually. Architecture begins when you place two bricks carefully together.

School of Architecture allows you to use your passion of creating extra ordinary designs & creating unlimited options with the limited space with hands-on learnings like human behaviours, human perception on designs, the process of design, and many more. Unlike traditional colleges where your exposure is limited to study halls and libraries, here at PPSU you will get a lot of opportunities to showcase your creativity and ingenuity while designing structures. While studying Architecture, you get an opportunity to study various fields of human endeavor, including Art, History, Material Science, Physics, Engineering, almost everything that can help improve the living environment of populace.

We do not limit our students' learning to bookish knowledge, but make them learn the fundamentals of visualization and capacitate them to think beyond the boundaries by providing education through software like Revit, AutoCad, Photoshop, etc. We have made Massive Open Online Course (MOOC) i.e. online learning available in Coursera, edX, National Programme on Technology Enhanced Learning (NPTEL) and many more. The theoretical analysis and teaching ignore the fact that architecture must also help man to exist by arousing feelings of home, identity and continuity.

Entry Requirements

Only candidates who have the following credentials shall be eligible for admission to B.Arch. Course:

i. Qualified through the recognized aptitude test in Architecture (NATA or equivalent)

ii. Have gone through any of the following curriculum with marks as prescribed below:

a. Secured at least 50% aggregate marks in Physics, Chemistry and Mathematics (PCM) and also at least 50% marks in aggregate of the 10+2 level examination OR

b. Passed 10+3 diploma examination with Mathematics as a compulsory subject with at least 50% marks in aggregate.

Candidates may note that no direct lateral admission is allowed at any other year/ stage of B.Arch. course based on any qualification.

For more information on the process, log on to **www.ppsu.ac.in**, all information is imparted on Admissions page. Please contact **counsellor@ppsu.ac.in** prior to applying.

Course Structure

We offer
BACHELOR OF
ARCHITECTURE PROGRAM

This program is as per the Council of Architecture.

Bachelor of
Architecture Course

With people becoming more conscious towards having a better lifestyle and environment, the demand of Architecture has seen tremendous growth in the national and international market. B.Arch. is an insightful program driven by impactful technological innovations like Virtual reality, 3D & 4D printing, augmented reality and artificial intelligence. Architecture also gives equal emphasis to Art and Humanities related subjects.

Explore Possibilities in Architecture

Higher Education: Can opt for Masters of Urban Planning, Architecture and many more.

Global Markets:
B.Arch. has scope across the globe but growth has been seen in prominent countries like:
Ireland, Qatar, Canada, Australia, USA, UK, Switzerland, Norway to name a few.

Profiles:
· Landscape Architect
· Urban Planner
· Restoration Architect
· Research Architect
· Lighting Architect (sustainability and space management)
· Political Architect (is active in political decisions of a city or country)
· Extreme Architect (who specializes in extreme weather conditions)

Package:
· The salary brackets vary in India and in the international markets based on the exposure student has received during B.Arch.
· The average salary of a fresher starts at 2.5 - 4 LPA with small firms and it differs with bigger firms and MNCs.

We offer English, French and German languages as compulsory languages to the students, preparing them for national and international exposure. As a part of extra-curricular activity, we also provide Music classes to all our students at PPSU.

International Collaborations

Master of
Urban Planning

Master of Urban Planning prepares you for a variety of vocations related to developing land projects. While it is true that a degree in urban planning sets you on the road to become an urban planner, there are other careers you can find. These jobs focus on the same principles of evaluating land development projects and considering costs and other concerns.

Eligibility Criteria

B.Arch., B.E/ B.Tech (Civil Engg.), B.Plan,
Post Graduation in Geography, Economics or Sociology
