**N**ursing is an art and science. A professional Nurse learns to deliver patient care tactfully with compassion, care and respect for each patient's dignity. Nursing as a science is based upon a body of knowledge that is always changing with new innovations. When nurses integrate the science and art of nursing into their practice, the quality of care provided to patients is at a level of excellence that benefits patients in innumerable ways.

The School of Nursing is the living embodiment of the future health care. And this future is not simply something that our students, faculty, and staff hope to see one day; they are making it happen here and now. So where exactly should you look to see this future?

We at P P Savani School of Nursing provide the best opportunity for students to learn. The courses offered are B.Sc. I can confidently say that P P Savani School of Nursing is one of the best nursing institutions in the state in terms of faculty, infrastructure and clinical learning facilities. We believe that our students are our treasure, our faculty is our strength and our management is our support, for continuous growth.

As per World Health Organization (WHO), 2.4 million nurses are required in India, and in most countries of the world there is a shortage of nurses. The developed countries fill their vacancies by enticing nurses from other countries. Nursing is such a profession that they will get jobs with high remunerations in any part of the world. Indian nurses are in a lot of demand abroad such as in USA, UK, Europe, Australia, Dubai, Canada etc. Within India, lots of opportunities are available in both Govt and private sectors.
