- Internet access for the students with all the software's required for the curriculum.
- Guest lectures by experts, seminars, exhibitions, quiz competitions etc. for overall development of the students.
- German language course
- Research training in various reputed institutes and industries.
- Excellent curriculum including Theory, Practicals and Research project.
- Highly qualified and experienced faculties

PROFESSIONAL GATEWAYS

- Genetic Engineers
- Environmental/Food Biotechnologists
- Agricultural Scientists
- Proteome and Genome Analysts
- Drug Designer
- Bioinformatics specialist
- Bio analyst
- Industry analyst
- Project manager
- Scientific officer
- Quality control manager
- Higher degree in India or abroad
